WHY WEBER?

- High quality products
- Broad range of accessories
- Warranty for up to 10 years
- Retailer Training
- Satisfied and inspired customers

PEOPLE WILL GLADLY SPEND GOOD MONEY ON HAPPY MOMENTS.

Here's a secret: At the end of the day, barbecuing is not just about the food. It's about quality time spent with family and friends. This is why **Weber** is a brand name that's associated worldwide with happy memories. Furthermore, the broad range of accessories available for a Weber® barbecue are perfect for securing lasting customer loyalty: you can count on the buyer of a **Weber** coming back for more. So will their neighbours – there's no sales pitch like word-of-mouth recommendations.

AN APPETITE FOR NEVER-ENDING INNOVATION

The history of **Weber** is the fascinating narrative of how one employee's desire to improve his weekend pastime drove the transformation of an entire company. Back in 1952, Weber Brothers Metal Works was a Chicago-based manufacturer of marine buoys. One of their welders, George Stephen Sr, was a zealous barbecue master, but increasingly frustrated with the open brickwork brazier he had in his back garden. Any passing shower could extinguish the fire. Even a few drops would tamper with the temperature and ruin the steaks. And the slightest gust of wind would blow hot ashes all over the place. Looking for a way to cover the barbecue without smothering the heat, George Stephen created the world's first kettle barbecue from two halves of a buoy. A few holes drilled into the bottom enabled the necessary air circulation. The invention was met with huge enthusiasm from George Stephen's neighbours, and sales of the new device almost immediately went through the roof. However, nobody could have foreseen back then that **Weber** was to become the very synonym for BBQ in countries all over the world. Since then, the brand has come a long way: **Weber** is now a leading manufacturer of not only charcoal barbecues but also gas and electric barbecues. However, the original kettle barbecue is still the icon of the brand – refined to near-perfection. At **Weber**, we will never stop striving for improvement.

GEORGE STEPHEN
Inventor & founder

BACK TO THE ORIGINS

Nothing surpasses the skill of barbecuing over coals. Or even the warm feeling of nodding off after a hearty meal in the company of glowing embers.

These are the dreams you sell when you sell **WEBER** – along with the equipment to make them come true: Perfect air circulation guarantees always-perfect barbecue results. High-temperature enamelling ensures that the kettle won't rust – backed up by 10 years warranty.

WEBER offers great value for money. Great options at every price point, replacement parts available for every WEBER® barbecue, as well as perfectly fitting essential and advanced accessories will convince starters and advanced barbecuers alike.

FUEL FOR SUCCESS: WEBER BRIQUETTES

When it comes to barbecuing, the result depends on the steadiness of the heat, and coal briquettes are ideal to provide that. The perfection of your customers' barbecue experience is our ultimate mission, so at **Weber**, innovation does not stop at the fuel.
Coals stored in places such as garages, cellars or garden sheds may grow damp over time. To prevent that, **WEBER®** barbecue briquettes come in a waterproof bag that's even re-sealable. So, no matter where your customers keep them until their next barbecue session – with **Weber** lighter cubes, the next fire will be on in no time at all.

ALWAYS READY
Revolutionary water-resistant zip bag to keep **Weber** briquettes dry.

20 MINS
is all it takes for **Weber** briquettes to reach the optimal cooking temperature.

3 HRS
is how long **Weber** briquettes are guaranteed to burn for at over 180 °C.

100%
natural. **Weber** briquettes are made from natural, recycled components.

HOT OPPORTUNITIES DURING THE COLD SEASON

With **WEBER**, the barbecue season never comes to an end. Come October, a kick-off event in store will promote our winter season stars, the "**Master-Touch GBS** Limited Edition" and the **"Genesis® II E-410 GBS**" and essential accessories. These special Christmas offers will convince even more customers that a WEBER® barbecue is the perfect Christmas gift. The Grill Academy will provide inspiration in the form of special winter recipes and barbecue courses for you to sell.

GENESIS® II – THE REVOLUTION OF GAS BARBECUING

When it comes to the joy of barbecuing, you will find that the most enthusiastic customers are also the happiest to spend – and vice versa. With the most advanced technology currently available in the marketplace, this is exactly the target group you will be able to attract. Satisfy your customers with premium quality and count on them to satisfy your customers with premium quality and count on them to keep coming back for additional accessories.

POWERED BY

THE INNOVATIVE HIGH PERFORMANCE GRILLING SYSTEM INSIDE EVERY Genesis® II

INFINITY IGNITION

The **Infinity** Ignition is guaranteed to ignite every time. An internal switch on each burner control ensures that by turning the knob, the gas will ignite and start each burner with ease.

HIGH PERFORMANCE BURNERS

The unique, tapered shape delivers a consistent gas flow from front to back. This provides ultimate heat distribution, ensuring that food cooks evenly and consistently anywhere on the cooking grate.

FLAVORIZER BARS

The classic **Flavorizer** Bars are angled just right to catch drippings that smoke and sizzle, adding that irresistible smoky flavour we all know and love to your food.

GREASE MANAGEMENT SYSTEM

The grease management system helps with the removal of grease while reducing the risk of flare-ups. Drippings are funnelled away from the burners into the disposable drip pan, located under the cookbox.

GOURMET BBQ SYSTEM (GBS)

DELIVERING UNLIMITED POSSIBILITIES

UPSELLING OPPORTUNITIES FOR YEARS TO COME

The **Gourmet bbq system (GBS)** makes barbecuing an almost unlimited experience: once your customers discover that the **GBS** does more than cook meat, fish and vegetables, they'll want to try the accessories out for themselves. After all, the **GBS** makes a **WEBER®** barbecue as versatile as a fully equipped kitchen. From pizza to pasta, or pineapple upside down cake for dessert – there's virtually no dish that can't be cooked on a WEBER.

SHINE UP YOUR BUSINESS. THE INNOVATIVE WEBER WAY OF CLEANING.

Show your customers how to make their outdoor kitchen shimmer and shine! WEBER's range of special cleaners will make the barbecue as good as new.

FOR LIFE!

LIFTING THE LID ON SIZZLING SALES

As the Weber brand grows each year, so does the demand for our products – from the iconic Master-Touch GBS 57cm charcoal kettle through to the revolutionary new Pulse, the smart grill set to change the urban barbecue landscape, and innovative accessories, such as the iGrill digital app-connected thermometer.

We want to ensure that your staff are equipped with the knowledge and expertise to convert the customers who come into your store to view Weber's range of products, into sales. Therefore, in 2018 we will once again be hosting an interactive day of training and development.

2017 FEEDBACK

"This has been the best training day I've been to yet."

"I have been to many Weber training events and the one I attended in Mill lane in Reading was by far the most well organised and professional event I've attend."

"It's been a really informative day."

This inspiring day will allow your Sales staff to:

• Explore the Weber story and find out how our products stand apart from the competition – **building knowledge and shop floor confidence**.

• Get to grips with hands-on cooking demonstrations using our latest products and accessories, including Genesis II® and iGrill products – **increasing staff expertise**.

• Participate in a sales training workshop where they'll **learn practical skills to cross-sell and upsell**; leading to improved productivity and increased sales of higher end product.

• Discover a superior barbecuing experience through interactive sessions designed to help **create credible sales stories.**

Places will be in high demand, please contact your Weber Sales Representative to discuss booking onto our training for 2018.

CHARCOAL BARBECUES

BACK TO THE ORIGINS – Barbecuing with charcoal is the most authentic and sensory way of grilling. It is like going back to the roots: set up a fire, smell the smoke, hear the crackaling of the briquettes, be one with nature. In a world that gets faster and more technological every day many people seek for real and authentic experiences – Enjoy the original barbecue feeling.

IN BRIEF

❶
Lid and bowl – made of quality US steel and porcelain-enamelled inside and out to achieve the best heat reflection and rust protection.

❷
Aluminium vents – provide airflow for combustion. The top and bottom vents should generally be fully open, as the air keeps the briquettes burning. When you have finished barbecuing you can close them to suffocate the fire and put out the barbecue.

❸
Handle – made from glass-reinforced nylon, to handle any weather conditions. On some models the handles incorporate two tool holders.

❹
One-Touch cleaning system – **Weber**'s system whereby a simple movement with the handle tips the ash into the ash catcher, which can then be removed and emptied.

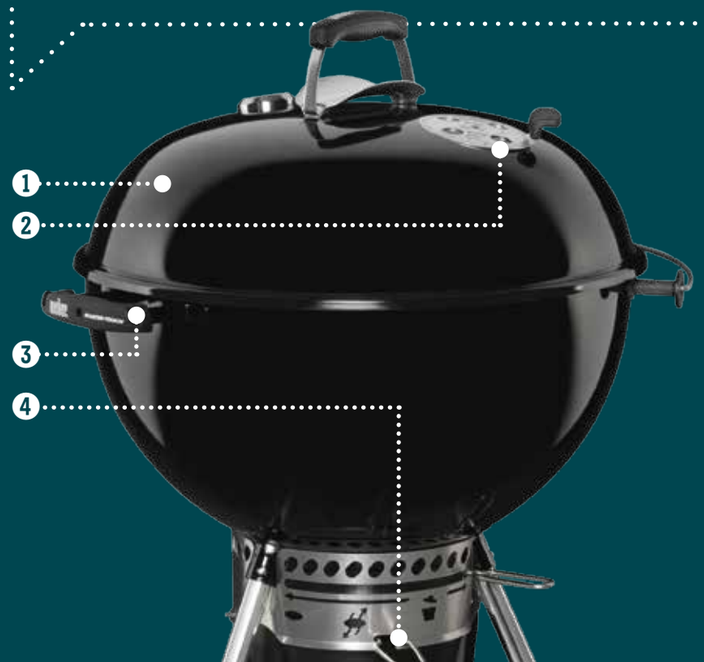

Charcoal rails / Char-Baskets – keep the briquettes in place, in line with the desired cooking method. The different barbecue models can have rails or **Char-Baskets**.

Grates – made of polished stainless steel or plated steel, built for many years of barbecuing.

Cooking area – a wide range of models with diameters of 37 cm, 47 cm, 57 cm and 61 cm.

Wheels – durable all-weather wheels, making it easy to move the barbecue.

Measuring cup – all charcoal barbecues come with a charcoal measuring cup.

BEST IN CLASS - Our Best in Class range encompasses the very best **Weber** has to offer; not only in barbecue features and performance, but also in the range of cooking techniques achievable.

WEBER Q BARBECUES

YOU EAT WITH YOUR EYES – Compact, stylish and modern, the **Q** family forms a universe of its own. You can choose between different cooking grate sizes, between gas or electric, between table or free-standing grill, and a rainbow pallet of lid colours. Unique versatility combined with contemporary individualism and the familiar, uncompromising **Weber** quality.

IN BRIEF

❶
Thermometer – built into the lid of the premium models in the series.

❷
Lid and base – made of lightweight cast aluminium.

❸
Work surfaces – some models come with practical folding work surfaces, giving you extra space.

❹
Frame and trolley – giving you a good working height. The larger models are attached to fixed trolleys, while frames are available for the smaller models to transform from a portable barbecue into an everyday barbecue.

Porcelain-enamelled cast iron grate – split into two parts, so you can replace one side with a griddle.

Award-winning design – which has created a brand-new type of gas and electric barbecue. The design is light and innovative as well as compact, making it ideal for urban and on-the-go grilling.

Burners – depending on the model, **Weber Q** comes with either one or two burners, to precisely match your needs.

Product dimensions – height and depth measurements are made with the lid up. Width measurements are with tables folded away and folded out.

BEST IN CLASS - Our Best in Class range encompasses the very best **Weber** has to offer; not only in barbecue features and performance, but also in the range of cooking techniques achievable.

WEBER® Q 1400 ELECTRIC GRILL

Small, stylish electric barbecue that is the ultimate solution when there are restrictions on using gas and charcoal.

Q BARBECUES 5 YEAR LIMITED WARRANTY

PRODUCT FEATURES

- Electric burner element
- Porcelain-enameled cast iron cooking grates
- Cast aluminium lid and body, with in-built carry handles
- 1.8m grounded power cable provides a safe connection to your power source

GAS BARBECUES

EVERYDAY HEROES – You come rushing home from work. Your family is hungry, and there is little time, but you don't just want to feed them anything. With the press of a button the gas barbecue is lit, and a delicious meal is soon ready – with all the atmosphere and great taste that goes with barbecuing. It is that easy with **Weber**'s gas barbecues.

IN BRIEF

❶
Thermometer – built into the lid, so you can always monitor the barbecue's temperature.

❷
Handle – rugged and heat resistant, so it always stays cool.

❸
Burners – **Weber**'s gas barbecue series; **Spirit** and **Genesis**, cover a wide range of models featuring between two and six burners.

Flavorizer Bars – **Weber**'s patented system of folded metal strips that cover the burners. These avoid flareups and provide barbecue flavour as juices and fat drip onto them.

Stylish design – completely in harmony with the functionality. The timeless design of the barbecues look great on any patio, and they have been built and tested to handle being outside in almost any weather condition.

Easy cleaning – fat and juices are led to the base of the barbecue and into a drip tray, which is easy to remove and replace. This prevents grease fires from occurring.

Optimal heat distribution – the **Flavorizer** Bars spread the heat and conduct it out into the barbecue. Some of the larger models are also fitted with heat deflectors.

Perfect control – the electronic ignition system starts the barbecue with a single click, and the knobs provide infinite control.

Castors – rugged all-weather wheels, keeping your barbecue mobile. The locking mechanism locks your barbecue in a stable position.

Product dimensions – height and depth measurements are made with the lid up.

BEST IN CLASS - Our Best in Class range encompasses the very best **Weber** has to offer; not only in barbecue features and performance, but also in the range of cooking techniques achievable.

BOTTLE IN - Our grills with this sign have a space-saving feature to house your gas cylinders inside your barbecue storage cupboard (only 5kg). Not only are they protected from the weather, but are also kept out the way!

GO-ANYWHERE GAS GRILL

Compact design with the convenience of gas cooking - this little wonder of a gas barbecue is the perfect companion when you're on the move.

GAS 10 YEAR LIMITED WARRANTY

PRODUCT FEATURES

- Fire and resistant lid and bowl, porcelain-enameled for durability
- Porcelain-enameled steel cooking grate
- Swivel legs that raise the barbecue up to avoid scorching the ground or surface and function as a lid lock for easy transportation

ACCESSORIES

A BBQ PALETTE OF POSSIBILITIES – Barbecuing is about much more than grilling steaks and sausages. You can cook everything on a Weber® barbecue, it's just about having the right equipment. Whether you want to grill spare ribs, serve the juiciest Sunday roast or treat your family with home baked pizzas – there are no limits and the barbecue is the right starting point. With the right accessories you can upgrade your barbecue, so that you can really start exploring the BBQ universe.

FROM ESSENTIALS TO ADVANCED

Weber offers a wide range of BBQ accessories – all created with an eye for functionality, versatility and the desire to make you a true backyard hero. So there's all sorts of accessories – from the necessary equipment you need for lighting up your barbecue in the easiest way, to gear that makes it quick and easy to clean and maintain your barbecue. From tongs, spatulas and roast holders to poultry roasters and rotisseries. From pizza stones and griddles, to woks and smoking wood. No matter how much experience you have in barbecuing, no matter which barbecue you have – there's inspiration and help available.
